how often U.S. poison control centers are called

77.8%

of poison exposures were unintentional

If you believe you or someone you love has been poisoned, call U.S. Poison Control immediately

800-222-1222

MEDICATIONS

Keep all medications, including vitamins, out of the reach of children and properly stored.

COSMETICS

Do not ingest cosmetics, keep away from children, and store properly.

COMMON CAUSES OF ACCIDENTAL POISONING

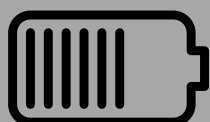

CLEANERS

Do not ingest, keep away from children, properly stored, and in their correctly marked bottle.

BITES AND STINGS

Be aware of your surroundings and check all clothes, towels, shoes, and objects left outside for any bugs or animals.

FOREIGN OBJECTS

Keep toxic objects, such as batteries, away from children. If someone is choking, call 911.
