

## FY18 Application Changes

Due to new GATA requirements for fiscal year 2018, changes will soon be integrated in the EGrAMS application process. See below for details.

Effective 8/14/2017

- **EGrAMS Pre-Qualification check begins 8/14/2017**

**When applicants attempt to ‘Initiate the Grant’ to generate an application, an error will occur if pre-qualification items are incomplete or out of compliance on the GATA website.**

*How does this affect me?* Applicants will not be able to move forward with the application process until pre-qualification is complete. Pre-qualification requirements must be completed on the Grantee Portal at [grants.illinois.gov/portal](http://grants.illinois.gov/portal).

Coming Soon!

- **Notice of State Award (NOSA)**

**Grantees will receive a Notice of State Award (NOSA) when selected to receive grant funding.**

*How does this affect me?* The grantee will accept or reject this notification of award. If accepted, the grant agreement contract will follow.

- **Programmatic Risk Assessment Questionnaire**

**The questionnaire will be built into the EGrAMS application in the “Miscellaneous” section.**

*How does this affect me?* The Risk Assessment Questionnaire will no longer be an attachment to download, complete and upload.
