S9999	Continued from page 1 to the Hospital Licensing Act. Background checks shall be based on the resident's name, date of birth, and other identifiers as required by the Department of State Police. (Section 2-201.5(b) of the Act) These requirements were not met as evidenced by the following: Based on interviews and record review, the facility failed to conduct a Criminal History Information Response Process (CHIRP) for newly admitted residents (R4, R10 and R11). This failure has the potential to affect 137 resident that reside in the facility. Findings include: R4 is 32 year old with diagnosis including schizoaffective disorder and essential hypertension. R10 is 46 year old with diagnosis including paranoid schizophrenia and post-traumatic stress disorder. R11 is 66 year old with diagnosis including but not limited to: Schizoaffective disorder, type 2 diabetes mellitus with unspecified convulsions, essential hypertension and insomnia. On 2/17/26 at 1:32 pm, V17 (Director of Marketing) stated the following, "Usually, me (V17) or my co-worker V23 (Admissions Coordinator) are responsible for residents' background checks upon admission. We try to do the CHIRP (Criminal History Background Checks) within the same day or the next morning after admission. We actually should do them within 24 hours of admission. I believe that is the IDPH regulation. It was an error on our part for not completing the CHIRPs within 24 hours. Part of the resident's care plan is based off the resident's background. This should be done for everyone's safety." R4's Admission Record documents an admission date of 2/6/26. R4's Criminal History background check was conducted on 2/10/26. R10's Admission Record documents an admission date of 1/19/26. R10's Criminal History background check was conducted			S9999
