S9999	Final Observations Statement Of Licensure Violations: 300.661 Section 300.661 Health Care Worker Background Check A facility shall comply with the Health Care Worker Background Check Act and the Health Care Worker Background Check Code. THESE REQUIREMENTS WERE NOT MET EVIDENCED BY: Based on record review and interview the facility failed to report certified nursing assistants (CNAs) employment and failed to maintain required registry verification in the health care worker registry, including hire, termination, and annual verification requirements. This applies to 2 (V18 and V22) of 5 employees reviewed for unqualified personnel. This failure also resulted in the inability to ensure CNA registry status remained active for 1 (V18) of 5 employees reviewed for unqualified personnel. The findings include: Information provided on the healthcare worker registry showed V18 (CNA) was hired on March 03, 2024, and termed on August 1, 2024. The date verifying still in position, was shown as April 03, 2026. Verification of employment was not submitted during V18's employment at the facility. Information provided on the healthcare worker registry showed V22 (CNA) was hired on July 02, 2014. V22 still works at the facility and therefore does not have a term or last day date listed on the registry. Under the section "date verifying still in position" there were two dates, September 14, 2021, and April 08, 2026. V22's employment verification			S9999			05/01/2026

S9999	Continued from page 1 had not been updated annually as required by the CNA Facts (guidance). On April 07, 2026, at 2:25 PM V8 (Business Office Manager) said that the facility reports to state's healthcare worker registry to report work history of certified nurses' assistants. V8 said that they may be behind on a few but normally submits verification of employment to the healthcare worker registry annually. Review of the state's CNA (Facts) guidance on dph.illinois.gov showed 1. Health care employers are required to obtain access to the Department's Web portal and the Health Care Worker Registry's Web application. The health care employer shall indicate employment dates and termination dates of the CNAs hired and separated from employment, respectively. If the CNA continues to work at that facility, the health care employer must provide verification no less than annually. The health care employer enters these dates directly into the registry's Web application. This employment information is what keeps the CNA active on the registry. (C)	S9999				05/01/2026
